

ceptional control

The HTH dosage and control system performs perfectly, day in, day out, working behind the scenes to achieve perfect sparkling water and helping to cut costs.

The HTH Easiflo Feeder range, HTH Easiflo Briquettes, and our automatic HTH Controllers add up to the most user-friendly pool water treatment system ever.

With ease of installation, reduced maintenance and increased operational safety, the HTH controllers and Easiflo feeders offer an Xceptional control package for your pool – The HTH controller* (cutting edge technology utilised at the Beijing Olympics Water Cube) – provides results, savings and water quality that has until now been unachievable.

We know that you'll take to the excellent HTH system because it's the control that makes the savings.
