

The calcium hypochlorite that ticks all the right boxes

hth

Did you know that HTH is the N°1 Calcium Hypochlorite in the world, manufactured by Arch, the largest producer in the world, and that we have over 30 years of UK market experience?

If you didn't and you are not using HTH products, here's what you have been missing.

- ✓ Unique HTH Briquettes - superior performance compared with standard shaped tablets.
- ✓ Unique and patented anti-scale, anti-blocking additive.
- ✓ HTH Granular - produces less dust than other cal-hypo's.
- ✓ Easiflo feeders are dedicated by design for HTH cal-hypo.
- ✓ HTH dedicated dosing & control systems utilise cutting edge technology, chosen as the automatic controller for the Beijing Olympics.
- ✓ No drum adaptors are required for all current UK dry chlorine feeders.
- ✓ UK distributor network, no tie-ins with one company for supply;
 - Total UK and Ireland coverage.
 - No single transport company to rely on.
- ✓ HTH technical support team are former pool managers and offer;
 - Years of experience of installations.
 - Product knowledge & performance requirements.
- ✓ 30 years of professional education policies;
 - Seminars & Roadshows.
 - Plant room surveys and reports.

With consistent product quality it's no wonder we sell more HTH than all cal-hypo manufacturers added together.
